TTM TECHNOLOGIES ANNOUNCES 2017 NORTH AMERICAN INTERNSHIP PROGRAM

COSTA MESA, CA – April 5, 2017, TTM Technologies, Inc. (Nasdaq: TTMI) is pleased to announce the return of the North American Summer Internship Program. The global printed circuit board solutions provider will offer internships to qualified students looking to gain professional experience in their field of study. The program is designed to build the students' professional credentials through meaningful, on-the-job training and experiences while igniting their imaginations with the ever-expanding, global opportunities offered through employment in the exciting fields of printed circuit board design and manufacturing.

Opportunities for internships exist throughout TTM. The internship program is ideal for highly motivated achievers who thrive in dynamic, innovative settings. Geared toward juniors going into their final year of study in a 4-year college or university program, this exciting program offers students a chance to contribute and work in an environment that encourages excellent results. Students provide tremendous value to our organization through increased productivity, fresh ideas, and talent; internships with TTM Technologies often result in permanent, full-time positions in an industry that is expected to grow steadily into the future.

The 2017 North American Summer Internship Program is an opportunity for interns to learn on a job, work in a collaborative environment and showcase their technical skills. *"I continue to be impressed with the talented interns that roll-up their sleeves and solve real-world challenges in our factories. Through this program, interns can expect exposure to the best technology and talent in the industry with a global customer base",* said Shawn Powers, TTM's Senior Vice President of Human Resources.

TTM Technologies is now accepting applications for the 2017 North American Summer Internship Program. To determine eligibility and learn more about the selection process, please connect with the Human Resources department at your local TTM Technologies site.

About TTM

TTM Technologies, Inc. is a leading global printed circuit board (PCB) manufacturer, focusing on quick-turn and volume production of technologically advanced PCBs, backplane assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market.
